

EHRA 2018

18 - 20 March 2018, Barcelona - Spain

Session Details

Challenges and current insights for the management of atrial high rate episodes

Mon 19 Mar	12:45 - 13:45	Atrial Fibrillation - Stroke Prevention - Oral Anticoagulation	Satellite Symposium	Sokolov - Lecture Room
------------	---------------	--	---------------------	------------------------

Chairpersons: Andreas GOETTE (Paderborn, Germany), Paulus KIRCHHOF (Birmingham, United Kingdom)

Subtitle: Organised by Atrial Fibrillation Network Association (AFNET), supported with an educational grant by Daiichi Sankyo

Learning Objectives: - To evaluate the existing data on adverse clinical outcomes including risk of stroke, death and subsequent Atrial Fibrillation (AF) in patients with atrial high rate episodes lasting at least 5 min - To provide an overview of current recommendations for the management of patients with atrial high rate episodes - To explore real-life strategies for treating patients with atrial high rate episodes - To discuss the on-going NOAH-AFNET 6 trial

List of Presentations

Time	FP Nr	Title	Speakers
12:45	592	Welcome and introduction - Challenges and current insights for the management of atrial high rate episodes.	Andreas GOETTE (Paderborn, Germany), Paulus KIRCHHOF (Birmingham, United Kingdom)
12:50	593	Uncertainties in the management of patients with atrial high rate episodes.	S Benedict FREEDMAN (Sydney, Australia)
13:02	594	Management of patients with atrial high rate episodes: how do we do it in Dresden?	Christoph AXTHELM (Pirna, Germany)
13:14	595	The NOAH- AFNET 6 study: design and update.	Andreas GOETTE (Paderborn, Germany)
13:26	596	Panel discussion.	Andreas GOETTE (Paderborn, Germany), Paulus KIRCHHOF (Birmingham, United Kingdom)
13:40	597	Conclusion - Summary: challenges and current insights for the management of atrial high rate episodes.	Paulus KIRCHHOF (Birmingham, United Kingdom), Andreas GOETTE (Paderborn, Germany)
