

Friday, 01.04.2016, 8:30 - 10:00, Room 19

„Looking back, moving onwards: 13 AFNET years“

Chairs:

Martin Borggreffe, Mannheim; Thomas Eschenhagen, Hamburg

Presentations:

Anticoagulation: From observational studies (AB1) to a controlled trial of NOACs in patients with atrial high rate episodes (NOAH – AFNET 6)

Michael Näbauer, Munich

Prevention of AF: From testing sartans in AF (ANTIPAF – AFNET 2) to a European translational research network (EUTRAF)

Andreas Goette, Paderborn

Antiarrhythmic drugs: From short term antiarrhythmic drug therapy after cardioversion (Flec-SL – AFNET 3) to validating different types of AF in patients (CATCH ME)

Paulus Kirchhof, Birmingham

Improving catheter ablation: From gap-less ablation (GAP-AF) to early rhythm control therapy (EAST – AFNET 4)

Ulrich Schotten, Maastricht
